TESTIMONIALS

“There is such a large selection of tests and the assessments are so in-depth that we feel very confident in their ability to help us determine the best fit for each of our open job positions.”

Jann L. Young
 Executive Assistant
 San-Diego Habitat
 for Humanity

“We have been extremely happy with the system. The customer service is excellent.”

Mary Anne Watson, PhD
 Professor of Management
 The University of Tampa

“PsychTests provides great insight and flexibility to help create a solution that works for both myself and my customer. I would highly recommend their products to other businesses who are looking for a reliable and knowledgeable provider.”

Tony Miglio
 President
 The Inside Mind

TESTIMONIALS

"We use the EI assessment in an educational setting for new police officers to discover their strengths and weaknesses. I appreciate the ability as an administrator to enroll and assign tests myself online without needing to contact anyone personally."

Lt. Al Kuehl
 Staff Development
 Rochester Police Department

"Our lead consultant wanted to introduce the EIQ assessment as part of our leadership programs to raise the level of awareness of our managers to the emotional aspect. We piloted the EIQ assessment with managers in Singapore and it was very well received."

Anne Buquet
 People Development
 and Talent Management
 France Telecom

Introduction

About ARCH Profile

ARCH Profile offers the most comprehensive and reliable selection of online assessments available. Developed by our team of experienced psychologists and programmers, our assessments utilize Artificial Intelligence (A.I.) technologies to deliver precise scoring and in depth analysis instantaneously in a user-friendly environment.

Our tests are developed by a team of experienced developers led by Ilona Jerabek, PhD. Our technical team, directed by artificial intelligence (AI) researcher Vrat Jerabek, continuously conducts experiments and simulations to improve the AI systems that handle complicated scoring algorithms. All of the professional tests offered on Psychtests are rigorously developed and based on a thorough statistical analysis. Each test is well researched and designed according to the APA (American Psychological Association) standards for educational and psychological testing.

About Us

Psychtests.com originally appeared on the internet scene in 1997 and is a subsidiary of Plumeus Inc., a privately owned high-tech company specializing in psychological test development and related products and services. While Plumeus is responsible for research and development of high-quality products and services centered on an extensive battery of psychological assessments, Psychtests was conceived as the delivery system of those same solutions. Since its inception, Psychtests has become a pre-eminent provider of psychological assessment products and services to human resource personnel, therapists, academics, researchers and a host of other professionals around the world

Vitals

No. of questions: 55

Question type: Situational, self-report

Estimated completion time: 20 minutes

Shorter versions of assessment: N/A

TESS 360 (Team Effectiveness Survey System)

Vitals

- No. of questions:** 88
- Question type:** Rating scale
- Estimated completion time:** 15-20 minutes per rater
- Shorter versions of assessment available:** N/A
- Recommended age level:** 18+
- Qualification Level:** Class A
- Compliance:** APA standards
- Group Comparisons:** Available

Features

This 360 feedback system consists of a rating survey that allows the members of a team to rate the team's performance in various areas. Are you looking to assess more than one team? The 360 system can generate an aggregated report that combines and quantifies the performance of all teams collectively.

Single team report Includes:

- Introduction
- Overall team performance score
- Breakdown of the team's performance in 19 areas
- Rater comments (optional)
- Advice

Team comparison report Includes:

- Introduction
- An overall aggregated performance score of all the different teams
- Breakdown of the teams' performance in 19 areas
- Rater comments (optional)
- Advice

Factors and Scales:

TESS 360 provides an overall performance rating, in addition to ratings for 3 overarching factors, broken down into 19 competencies:

- **Work Structure:** Assesses the manner in which tasks are completed and how the team approaches work. Includes Accountability, Empowerment, Adaptability, Goal-orientation, Goal Clarity, Time Management Skills, Networking Skills, Project Management, and Mentorship/Leadership.
- **Social Structure:** Assesses group interaction and conduct. Includes Communication Skills, Conflict-Resolution Skills, Role Clarity, Problem-Solving Skills, Managerial Support, and Openness to Feedback.
- **Group Cohesion:** Overview of group unity; assesses the bond between team members, or lack thereof. Includes Cooperation, Compatibility, Motivation, and Goal Alignment.

Purpose: TESS 360 is designed to assess a team's performance as a whole. The entire group is asked to provide feedback on the manner in which projects are completed, how the team interacts, and whether there is a strong sense of team spirit. This 360 will also bring to light any issues that are hindering the group from reaching their full potential.
